Mecklenburg County Schools   Charlotte, NC
                                                        August 2017 - Present

School Counselor & MTSS Data Lead
Managed a compliance program to monitor student performance; interpret and present both qualitative and quantitative data for over 900 students. Designed and implemented an Excel and SharePoint-based system for teachers to collect evidence of student performance and provided a quantitative and qualitative data analysis to target improvements.
Designed a Google Sheets-based reporting mechanism for negligible budget impact to manage a school-wide initiative on using quantitative analytics of student reading patterns for over 450 individuals, identifying leading / lagging performers and establishing action plans
